</> PROJECTS

Current project: CRWN Clothing
www.crwn-colthing288.herokuapp.com/
Shop application implemented with React / Redux and Firestore.

React Chat
www.react-chat2888.herokuapp.com/
Implemented a real time chat with Rails Action Cable, Rails API and React / Redux for the frontend.

IWELL - www.iwell.herokuapp.com/
Menthal health app which allows people to book and connect to their therapists online.

Instrurent
https://rails-instrurent.herokuapp.com/
Online marketplace where people can rent and offer their instruments.

For the 2 projects above I worked in a team of 4 at Le Wagon, doing frontend and backend tasks, collaborating through Github and Trello.

Mister Cocktail - le-bar-berlin288.herokuapp.com/
A cocktail listing and creation app, users can view all or list their own cocktails.
